Prof.Dr.R.K.JAYARAMAN MD(HOM), Guest lecturer, Sarada Krishna Homeopathic Medical college , kulasekaram , Kanyakumari (Dt)

Topic : Holistic Approach through Body Language in Homoeopathic practice.

Time : 2 pm to 4pm

Venue : PG Seminar Hall, VM Homoeopathic Medical College and Hospital, Salem.

CME- co ordinator: Dr.J.Senthil Kumar.

HOW TO READ BODY LANGUAGE

1. Raised eyebrows often signal discomfort.

2. If their voice goes up or down, they're most likely interested.

3. Direct eye contact shows interest – positive and negative.

4. If they look into your eyes and you feel uncomfortable, they might be lying.

5. People usually look to the left and right when they are thinking.

6. If they mirror your body language, the conversation is probably going well.

7. Look for a lack of crinkles around the eyes to detect a fake smile.

8. If they're laughing with you, they're probably into you.

9. Expansive, authoritative postures show leadership.

10. A shaking leg signals a shaky inner state.
