

**VINAYAKA MISSION'S RESEARCH FOUNDATION, SALEM  
(Deemed to be University)**

**BASLP DEGREE EXAMINATION - November 2019**

**Fifth Semester**

**FLUENCY AND ITS DISODERS**

Three Hours

Maximum: 100 marks

**SECTION - A**

**I. Answer the following :**

**(6x1=6)**

1. A \_\_\_\_\_ is the smallest segment of sound that has the power to change the meaning.
2. Core features of stuttering include \_\_\_\_\_
3. Expand SSI.
4. Expand on EMG.
5. Cluttering therapy according to Weiss 1964 should focus on \_\_\_\_\_
6. Indicate an analogy to help the child to understand tightness resulting from aerodynamic back pressure.

**II. Answer briefly :**

**(8x2=16)**

7. Normative for rate of speech at different age group.
8. Laryngeal behaviours in fluent speech.
9. Secondary stuttering.
10. Sound prolongation in stuttering and NNF.
11. Factors to consider during post therapy assessment.
12. What is response cost approach?
13. Treatment techniques for SAAND.
14. Strategies for NNF.

**III. Answer briefly :**

**(6x3=18)**

15. Differentiate disfluency Vs dysfluency?
16. Feelings and attitudes are different in NNF and stuttering?
17. What are the subjective and objective assessments in fluency?
18. Parent child interaction.
19. Meta communication therapy.
20. Four step procedure for training inself-monitoring.

**SECTION – B**

**IV. Write short notes on any SIX:**

**(6x5=30)**

21. Write short note on suprasegmentals. Explain its importance in fluency.
22. Scope of fluency in the field of speech and hearing.
23. Adaptation effect on stuttering.
24. Briefly explain on SAAND.
25. Differentially diagnose spasmodic dysphonia and stuttering
26. MIDVAS approach

(p.t.o.)

27. Short note on various instrumental approaches for stuttering.
28. Write a note on early identification of stuttering.

**SECTION – C**

**V. Answer any TWO of the following :**

**(2x15=30)**
